

# SOUNDTRACK OF MY LIFE

- 1) Create a playlist of songs that you think best represents you. Consider:
  - What genre of music best represents you?
  - What mood/feelings sum up your personality?
  - Do the lyrics describe you and/or your unique life?
  - Do you wish to incorporate any songs that are meaningful to you, or have been important in your life?
  - They could even just be songs that you enjoy listening to!

Your playlist should include 6-8 songs that best represent you (feel free to include more songs if you wish). Write down the title of the song, the artist and your favourite musical moment. The musical moment is the part of the song which really says something to you - your favourite part, is it a specific lyric or instrument choice or something else? Once you have completed your playlist, decorate around it with musical images and images that relate to the songs.

Next:

Level Up - Choose one song that you consider to be your favourite. Explain in as much musical detail as you can why you love this song so much. Describe musical details and the reason why you chose this song.

Design a front cover for your favourite song, make it stand out with images, artist, title, lyrics and anything else you would like on your song cover.

Once you have completed these tasks send to [performingarts@appletonacademy.co.uk](mailto:performingarts@appletonacademy.co.uk)

You can send images of your work or it can be done on the computer if you would prefer.
